EXPERIENCE

Major League Baseball, Test Engineering Intern

Start Date: June 2024

GainGuard, Software Developer

January 2024 – April 2024

- Enhanced the **UI** using **React** and **responsive features of CSS** to seamlessly allow users to use GainGuard on both web and mobile devices

Blue Cross Blue Shield of Massachusetts, Full Stack Software Engineering Intern

June 2023 – Aug 2023

- Initially utilized **Spring Boot**, **Selenium**, and **Java** to scrape **LogRocket** navigation data, later transitioning to **Python** for speed, and stored cleaned data in a **PostgreSQL** database
- Developed a **Random Forest** model to predict top 3 links for 5 general insurance plans
- Created an **Angular Service** with **Python** backend to display unique links based on insurance plans on BCBSMA website homepage
- Enhanced security using **Spring Boot** features **SecurityFilterChain** and **Beans** and integrated multiple endpoints for data display using **Spring Boot**, **Python**, and **Angular** in MyBlue developer tools

Tufts TAMID, President

Dec 2021 – Dec 2022

Tufts TAMID, Co-Director of Data Science Sector

Apr 2021 – Dec 2021

Tufts TAMID, Associate Data Scientist

Oct 2020 – April 2024

- Oversaw consulting, finance, data science, and budget, while coordinating projects and membership and teaching data science education
- Learned about various aspects of data science, such as **deep neural networks** and **decision trees**, and applied this knowledge to professional and real-world experience, most recently through a project with TropX

Tufts University, Teaching Assistant for Computer Science

Aug 2021 – May 2024

- Conduct student instruction on **recursion**, **pointers**, and **functional programming**, while also managing office hours, grading assignments, leading a weekly 26-person lab, and contributing to course infrastructure

Girls Who Code, Teaching Assistant for Summer Immersion Program

May 2022 – Aug 2022

- Taught **HTML**, **CSS**, and **JavaScript** while promoting sisterhood and making an impact with STEM and computing

PROJECTS

Alarm (Python, Scapy)

- Developed a network incident detection tool that enables users to identify potential vulnerabilities and security breaches in network traffic using **live network streams** or **sets of PCAP files** for various security incidents

Theta Budget Tracker (HTML, CSS, JavaScript, JQuery, Selenium, Python)

- Designed and developed platform for sorority budget management, utilizing **Selenium** for budget scraping and **Heroku** for deployment
